### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. David A. Fox, Reg. 38,807 on December 7<sup>th</sup>, 2005.
3. The application has been amended as follows:  
Cancel claims 106-118.
4. The following is an examiner's statement of reasons for allowance: The prior art of record does not fairly teach or suggest the system and its method as claimed by the Applicant wherein the system maintains the water bag, its top defining barrier and the patient in a constant position, while the sensors move. This configuration is critical because it allows the sensor to move at a much higher frequency than with a variable volume bag and a moving patient. The volume of the water bag is constant during the measurements. The claims 106-118 are drawn to the electrostatic shield as opposed to the constant volume water bag and hence better addressed in a continuation/divisional application.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
